Websites

Whatever your needs for a website are, we'll listen to you, work with you and present a solution which will knock your socks off. We love to go the extra mile and deliver **outstanding solutions** for our clients.

We know digital and we know that you need a solution which not only looks good, but performs to meet **your business goals** as well. From initial designs through to the launch of your site, we'll constantly keep you involved in the build.

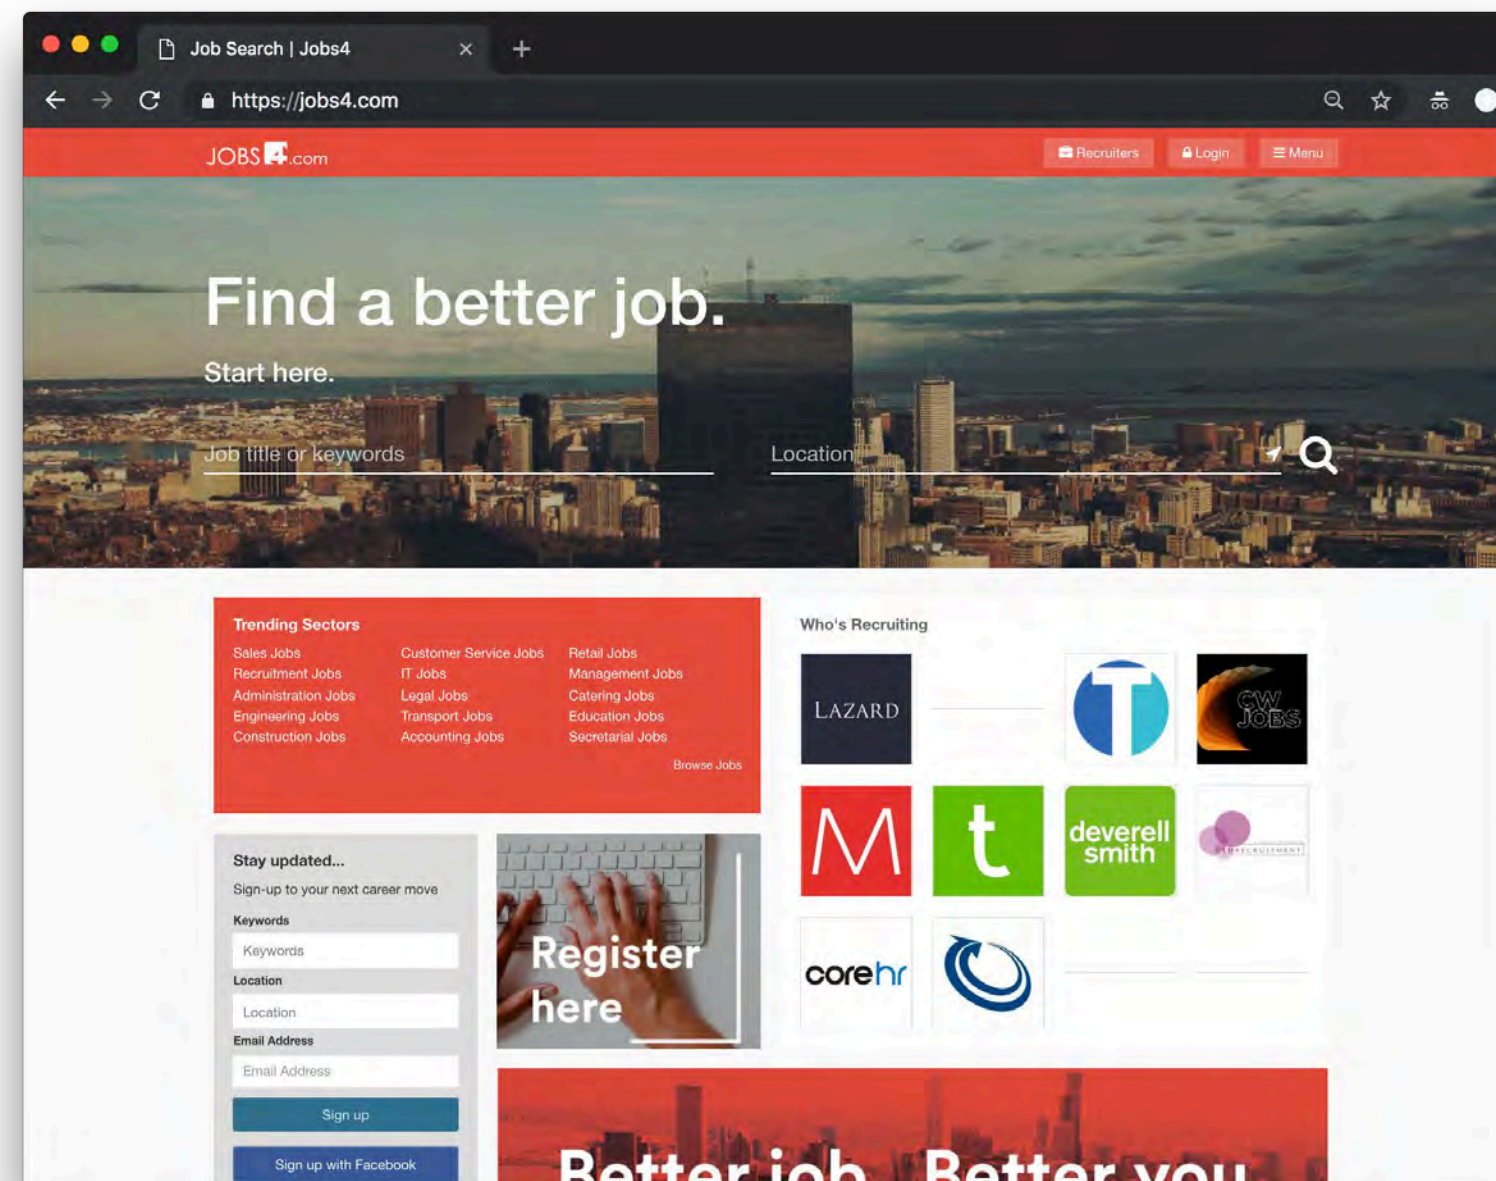

Whether you need a simple, but beautiful, **responsive website** or have a complex site build which requires out of the ordinary functionality or a suitable admin portal. We will deliver the solution which is right for you, not just thrown together.

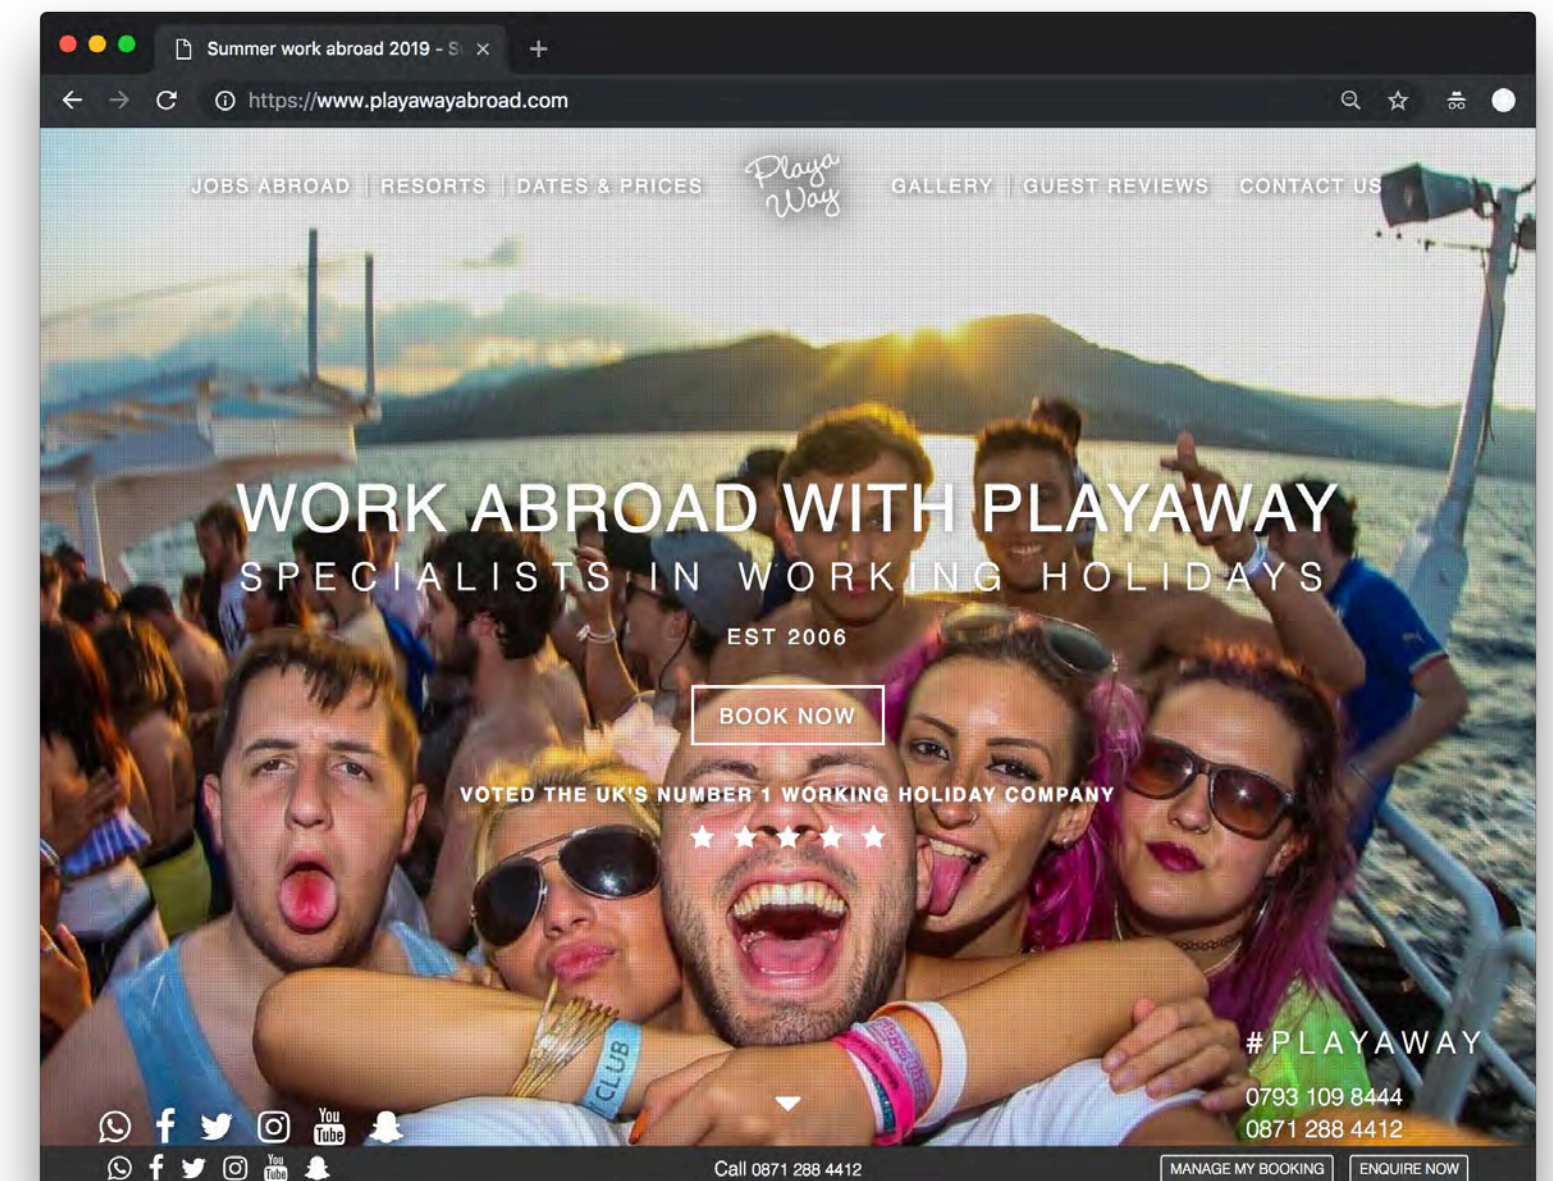

Delivering stunning websites tailored to your business needs making you stand out from the crowd.

Content Management

Easy to use and insightful. Our content management system will be suited to your needs and **tailored for your digital solution.**

Allowing you to keep your website **fresh with content** whilst maintaining the professional look of your site. You'll no longer need to rely on anyone else to keep your website updated.

On your mobile, tablet or laptop. Anywhere in the world. Our CMS is **easy to use** on any device. If you ever get stuck, remember, we're the friendly team who are here to help you.

We use it, it must be good

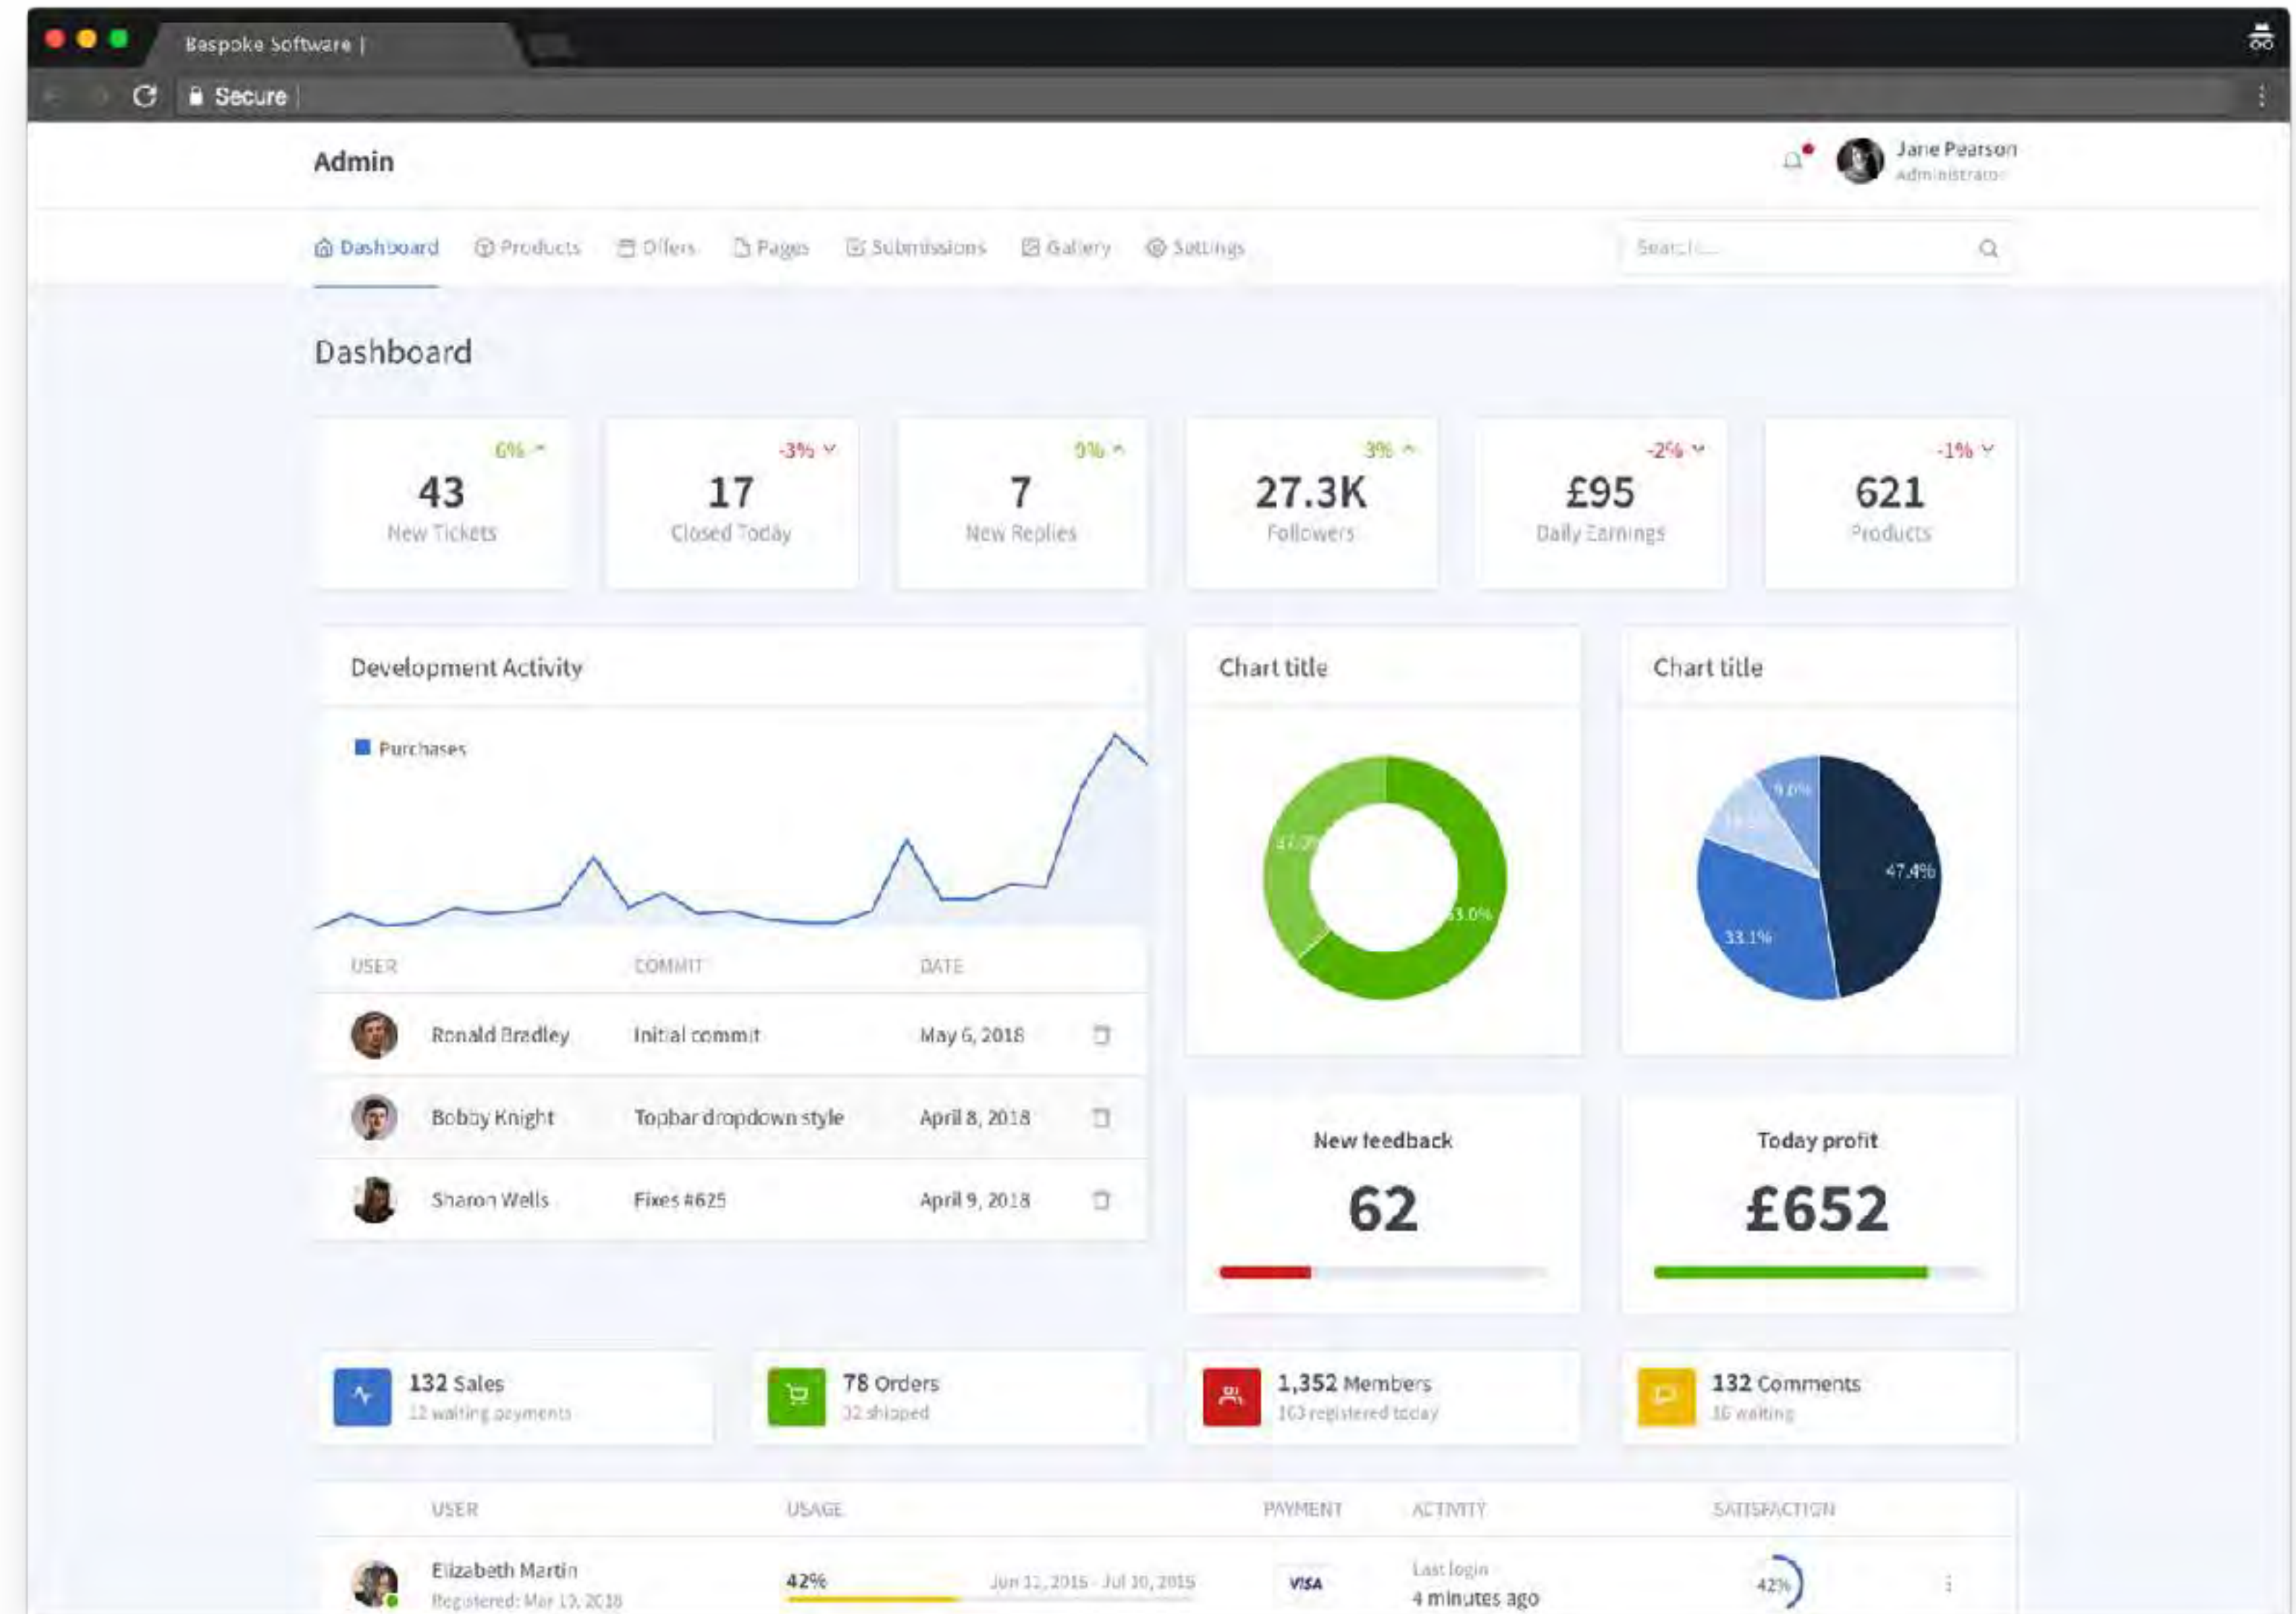

Bespoke Software

We deliver bespoke software for our clients to **transform business processes**. Whatever challenges you have been facing, we will work with you to discover the right solution for your business.

The end result will be a refined, professional, completely bespoke solution for your business. Utilising the most up-to-date and **secure technologies**. Meaning that whatever you needed it to do, your solution delivers the insights you need.

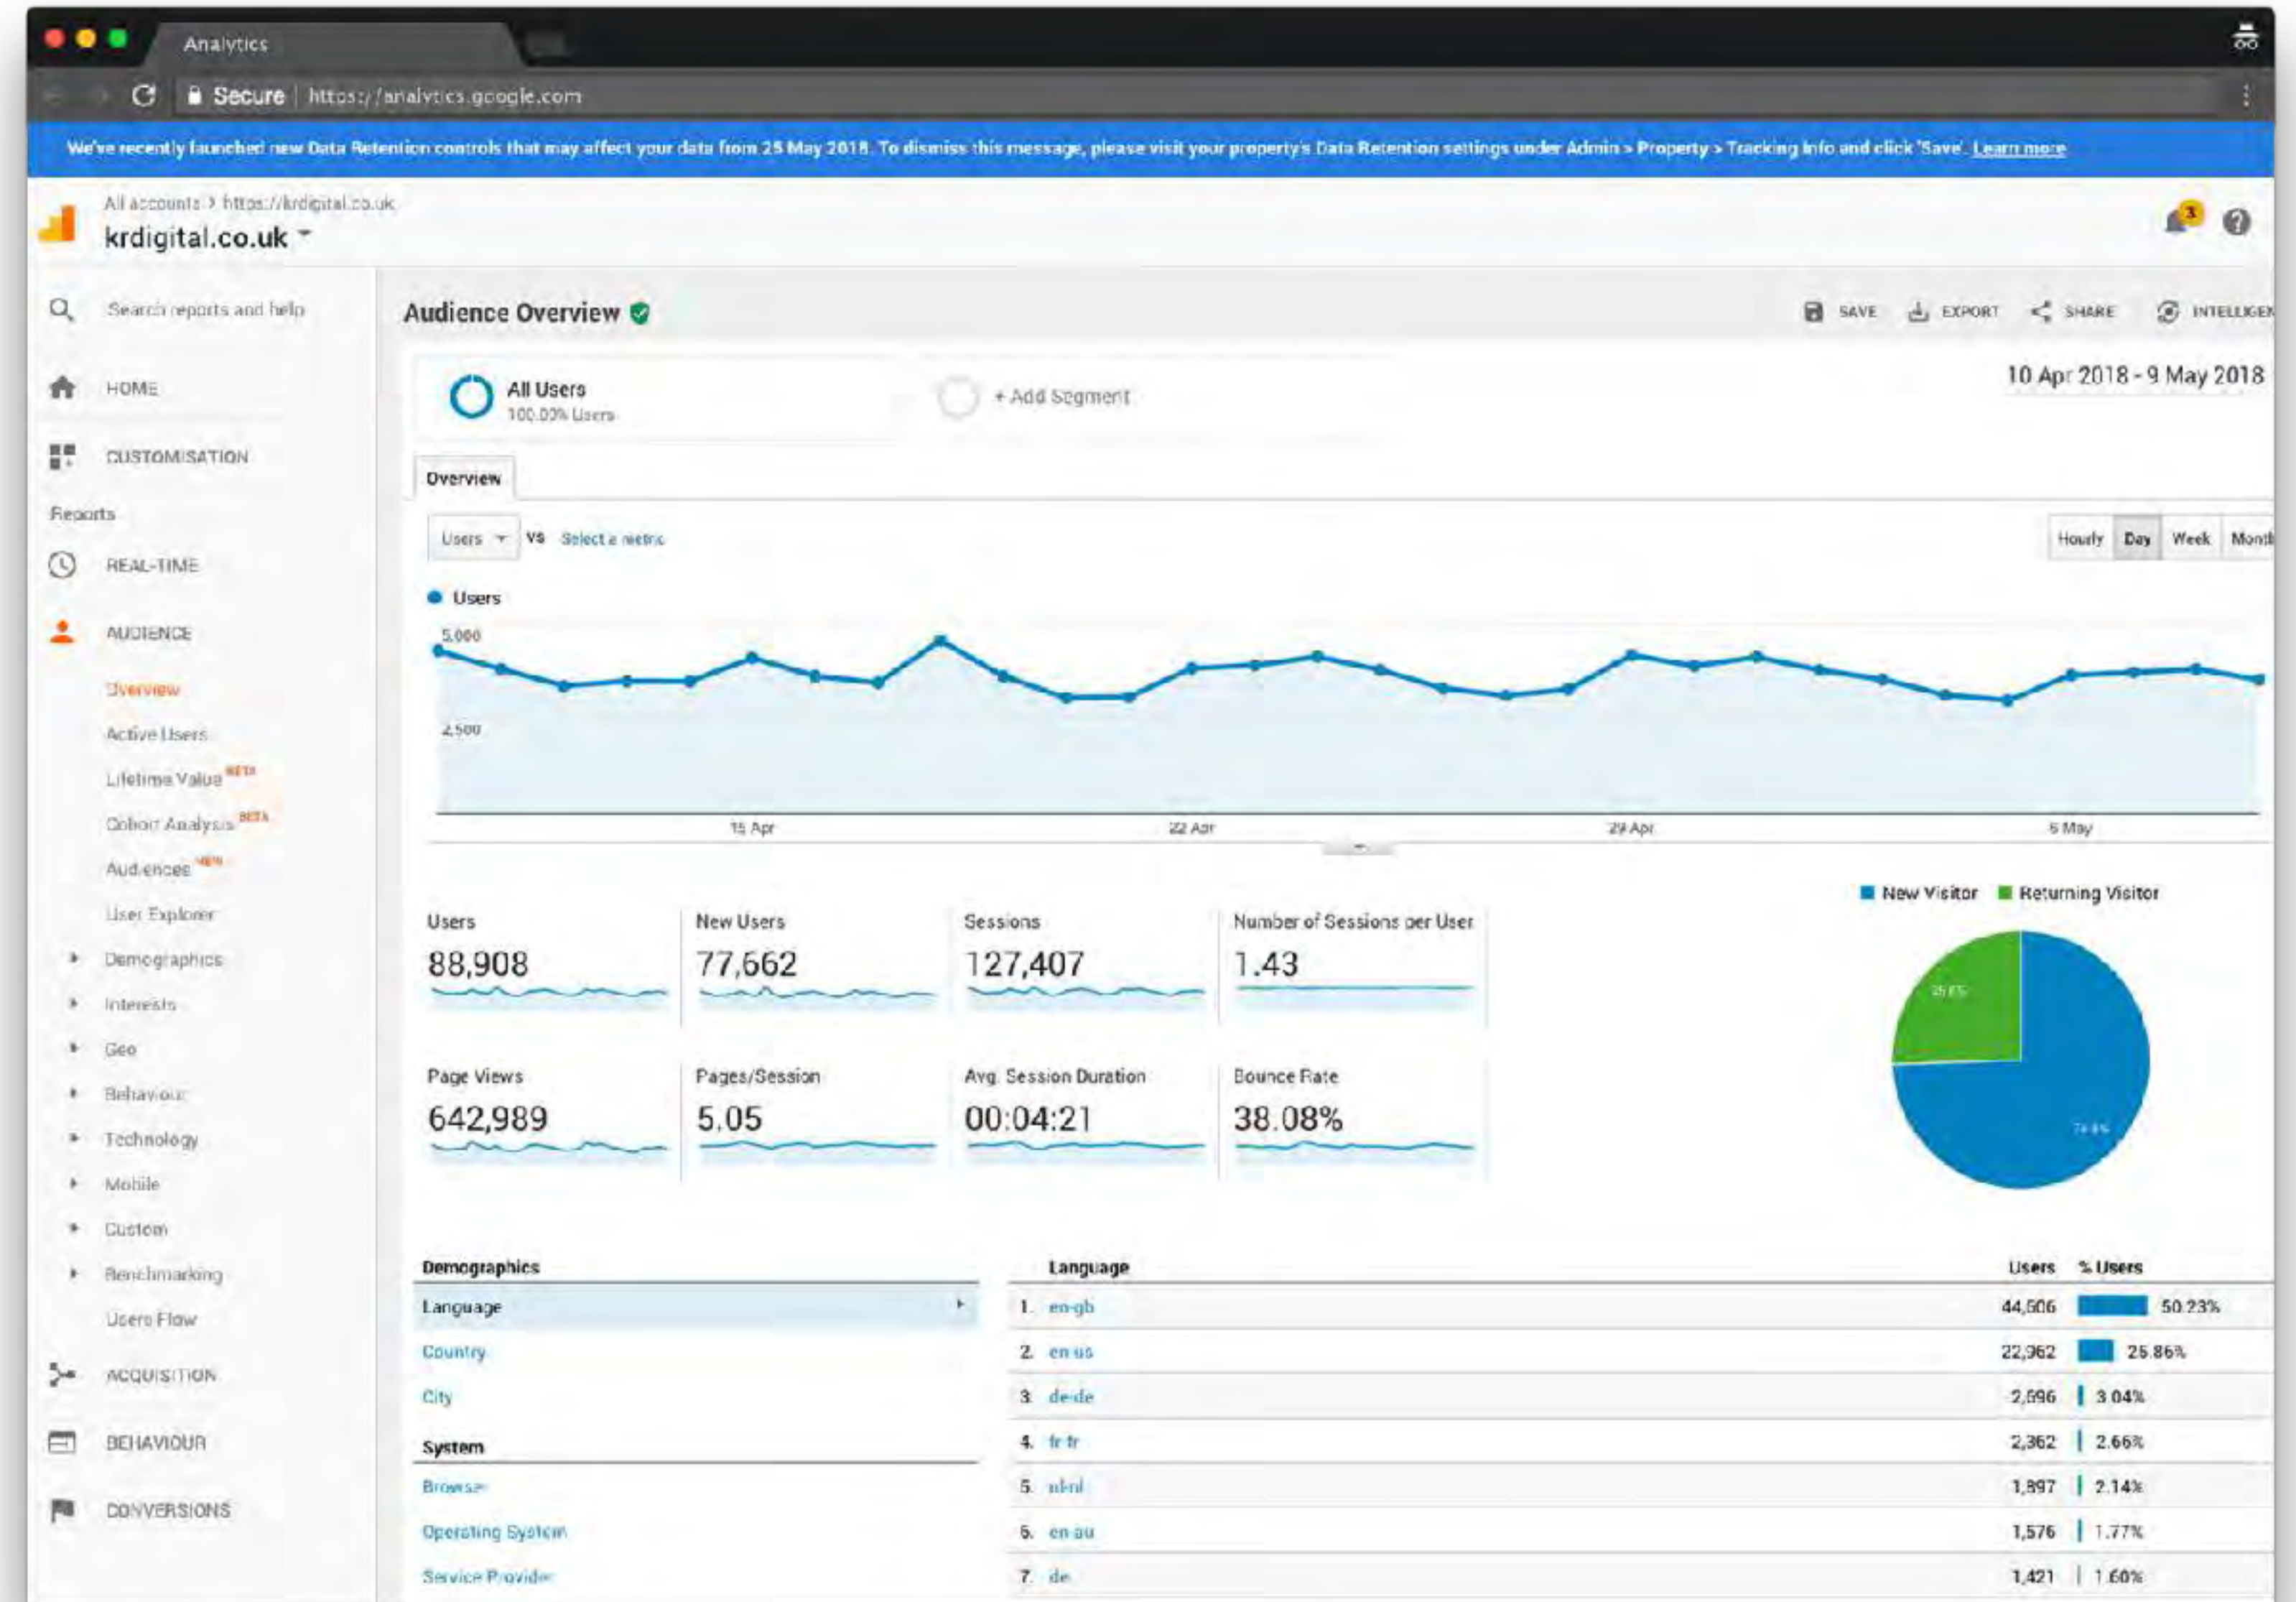

Whether that be HR resources, e-learning for your team or a bespoke customer response system. Speak to us about your desires and we'll deliver an **outstanding solution** just for you.

Analytics

With great marketing comes great responsibility. After setting up your new campaign, you need to **keep track** of the results and make sure it's performing at its very best.

We use the **latest and greatest** techniques to continuously analyse your campaigns' performance, offering extended advise and carefully constructed changes as your campaign progresses. We don't just set up and leave you.

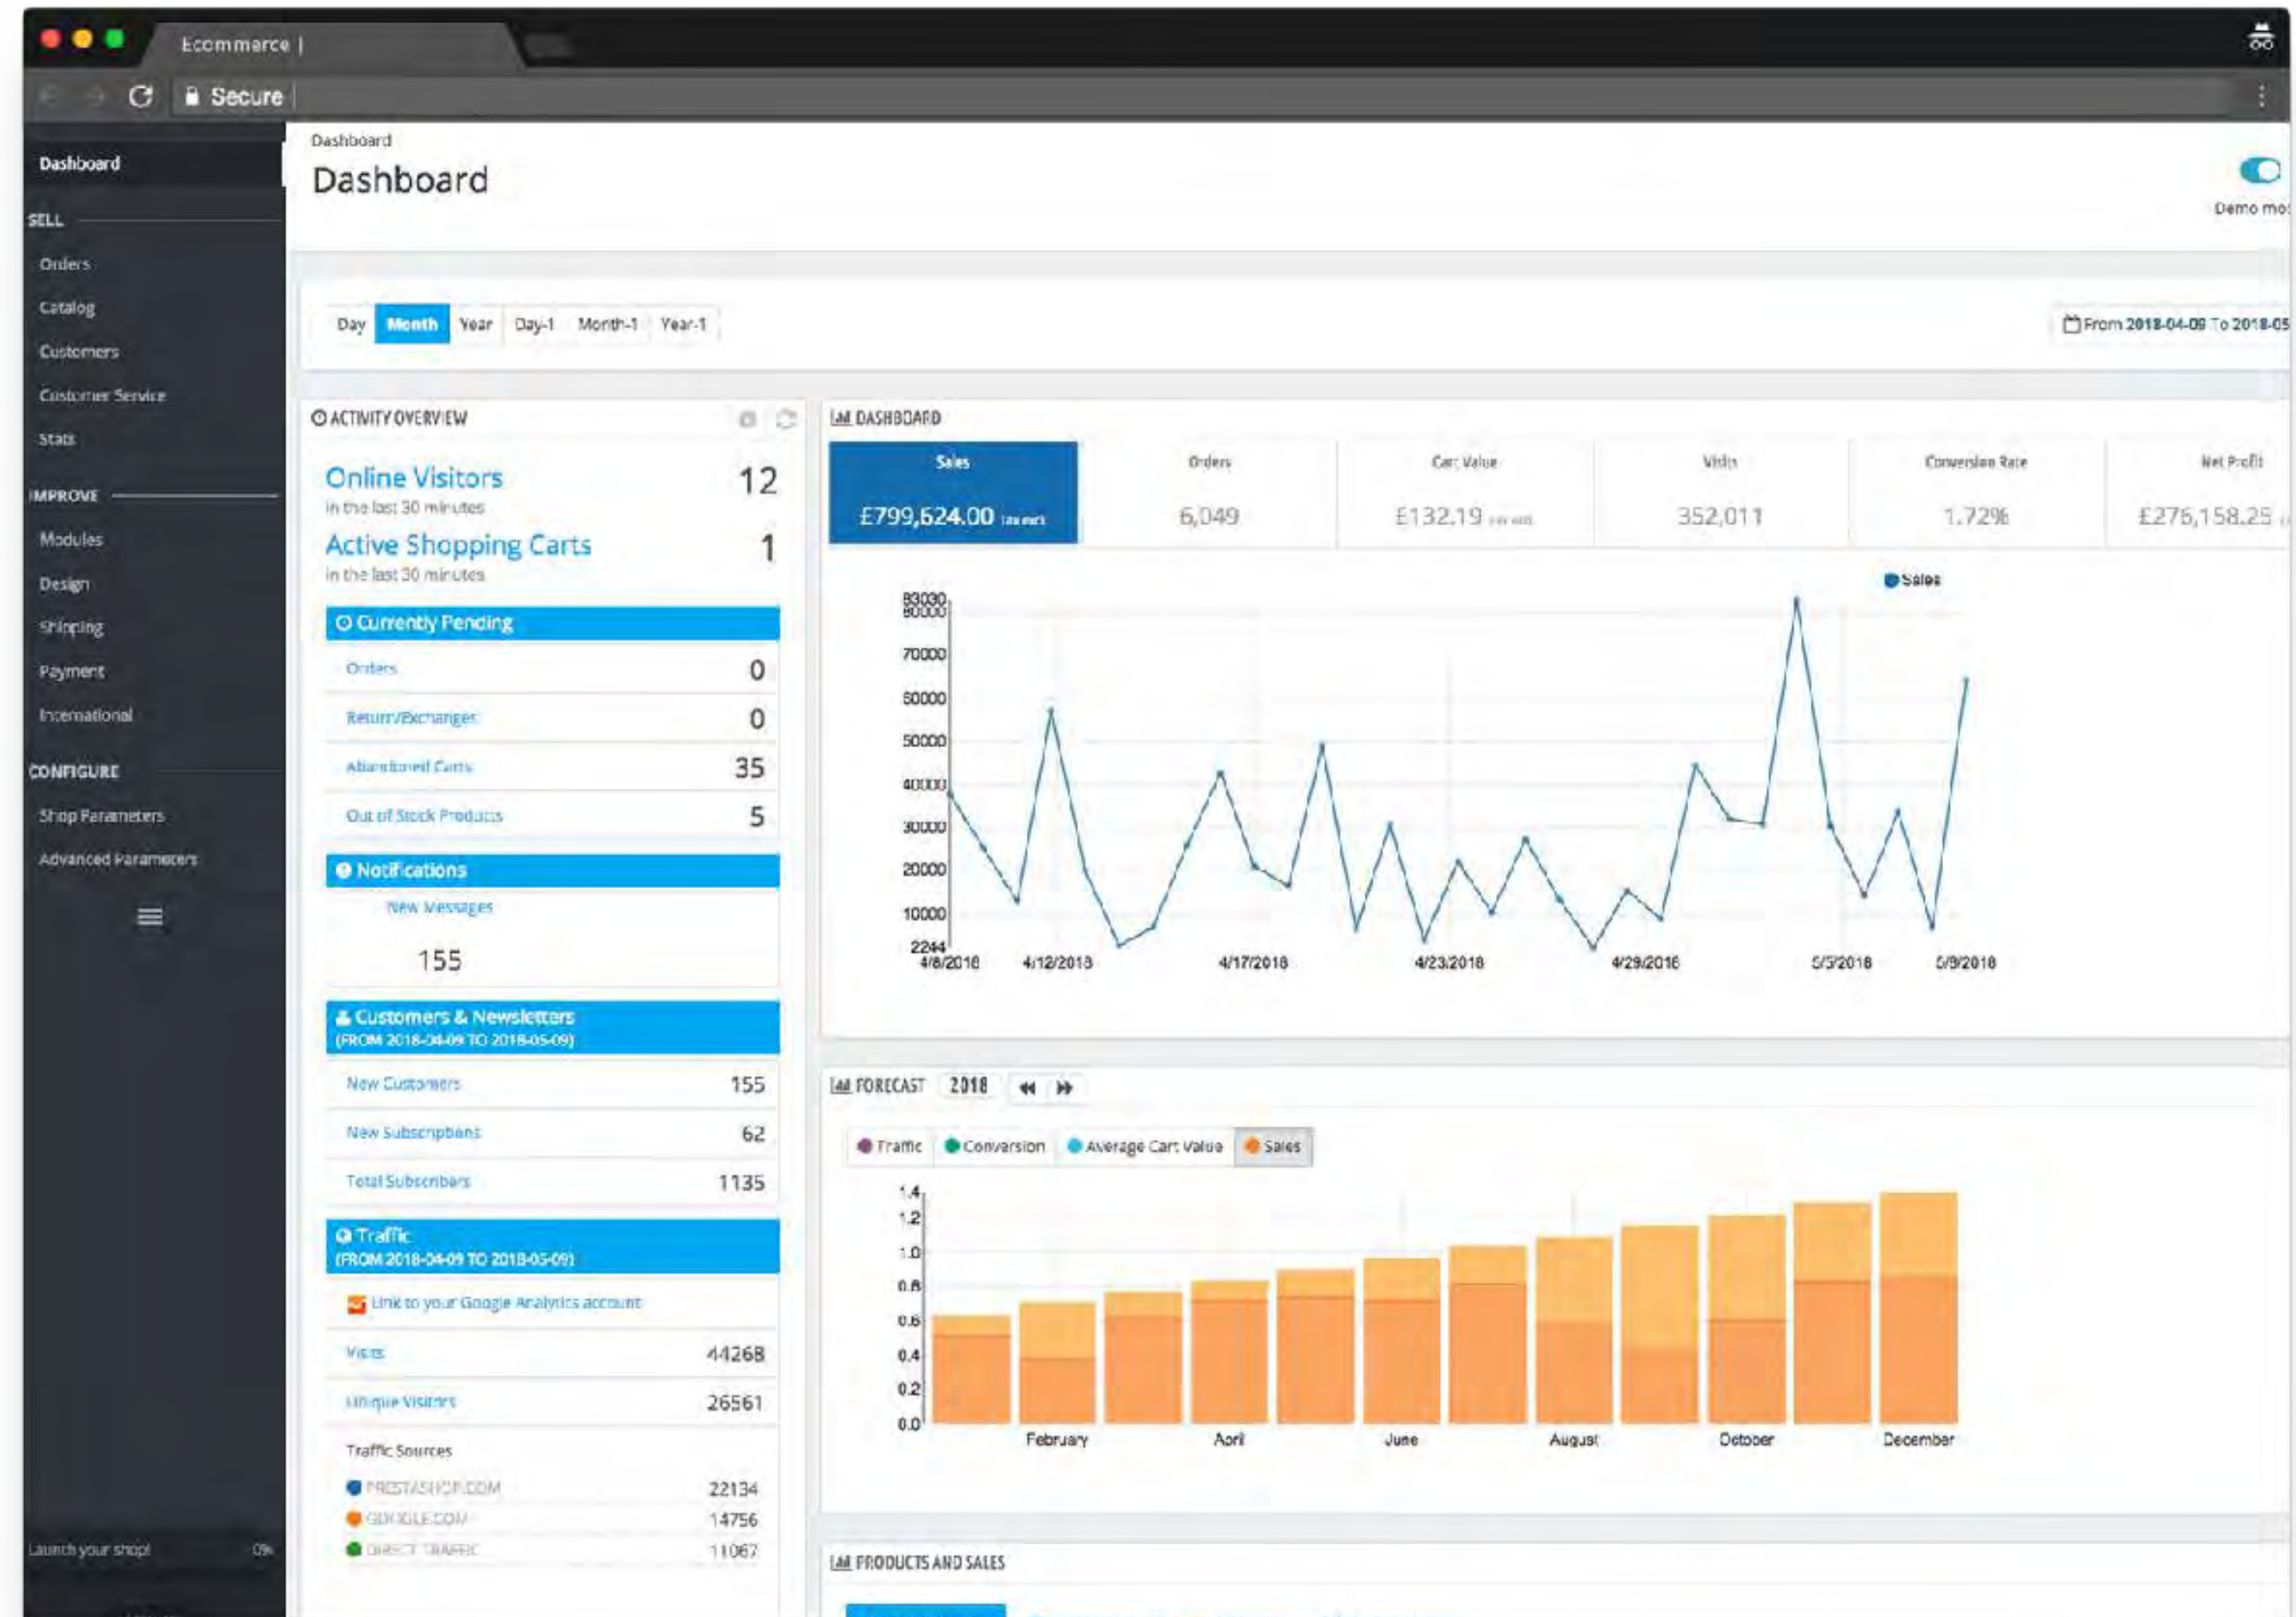

Ecommerce

Looking to sell your products online and open up those shop shutters to the public? We've got you covered. KR Digital can set you up with your very own ecommerce website, **tailor-made** to fit the style and message of your products.

You'll be able to upload your products with ease, and view stats and reports on how well your products are selling. Not only that, you'll be able to **manage everything** from stock levels and product reviews to shipping & handling.

We won't just set you up and send you on your way though - unless that's what you'd prefer. We will show you through every aspect of your **ecommerce platform**, and always be on hand should you have any questions about your new online shop.

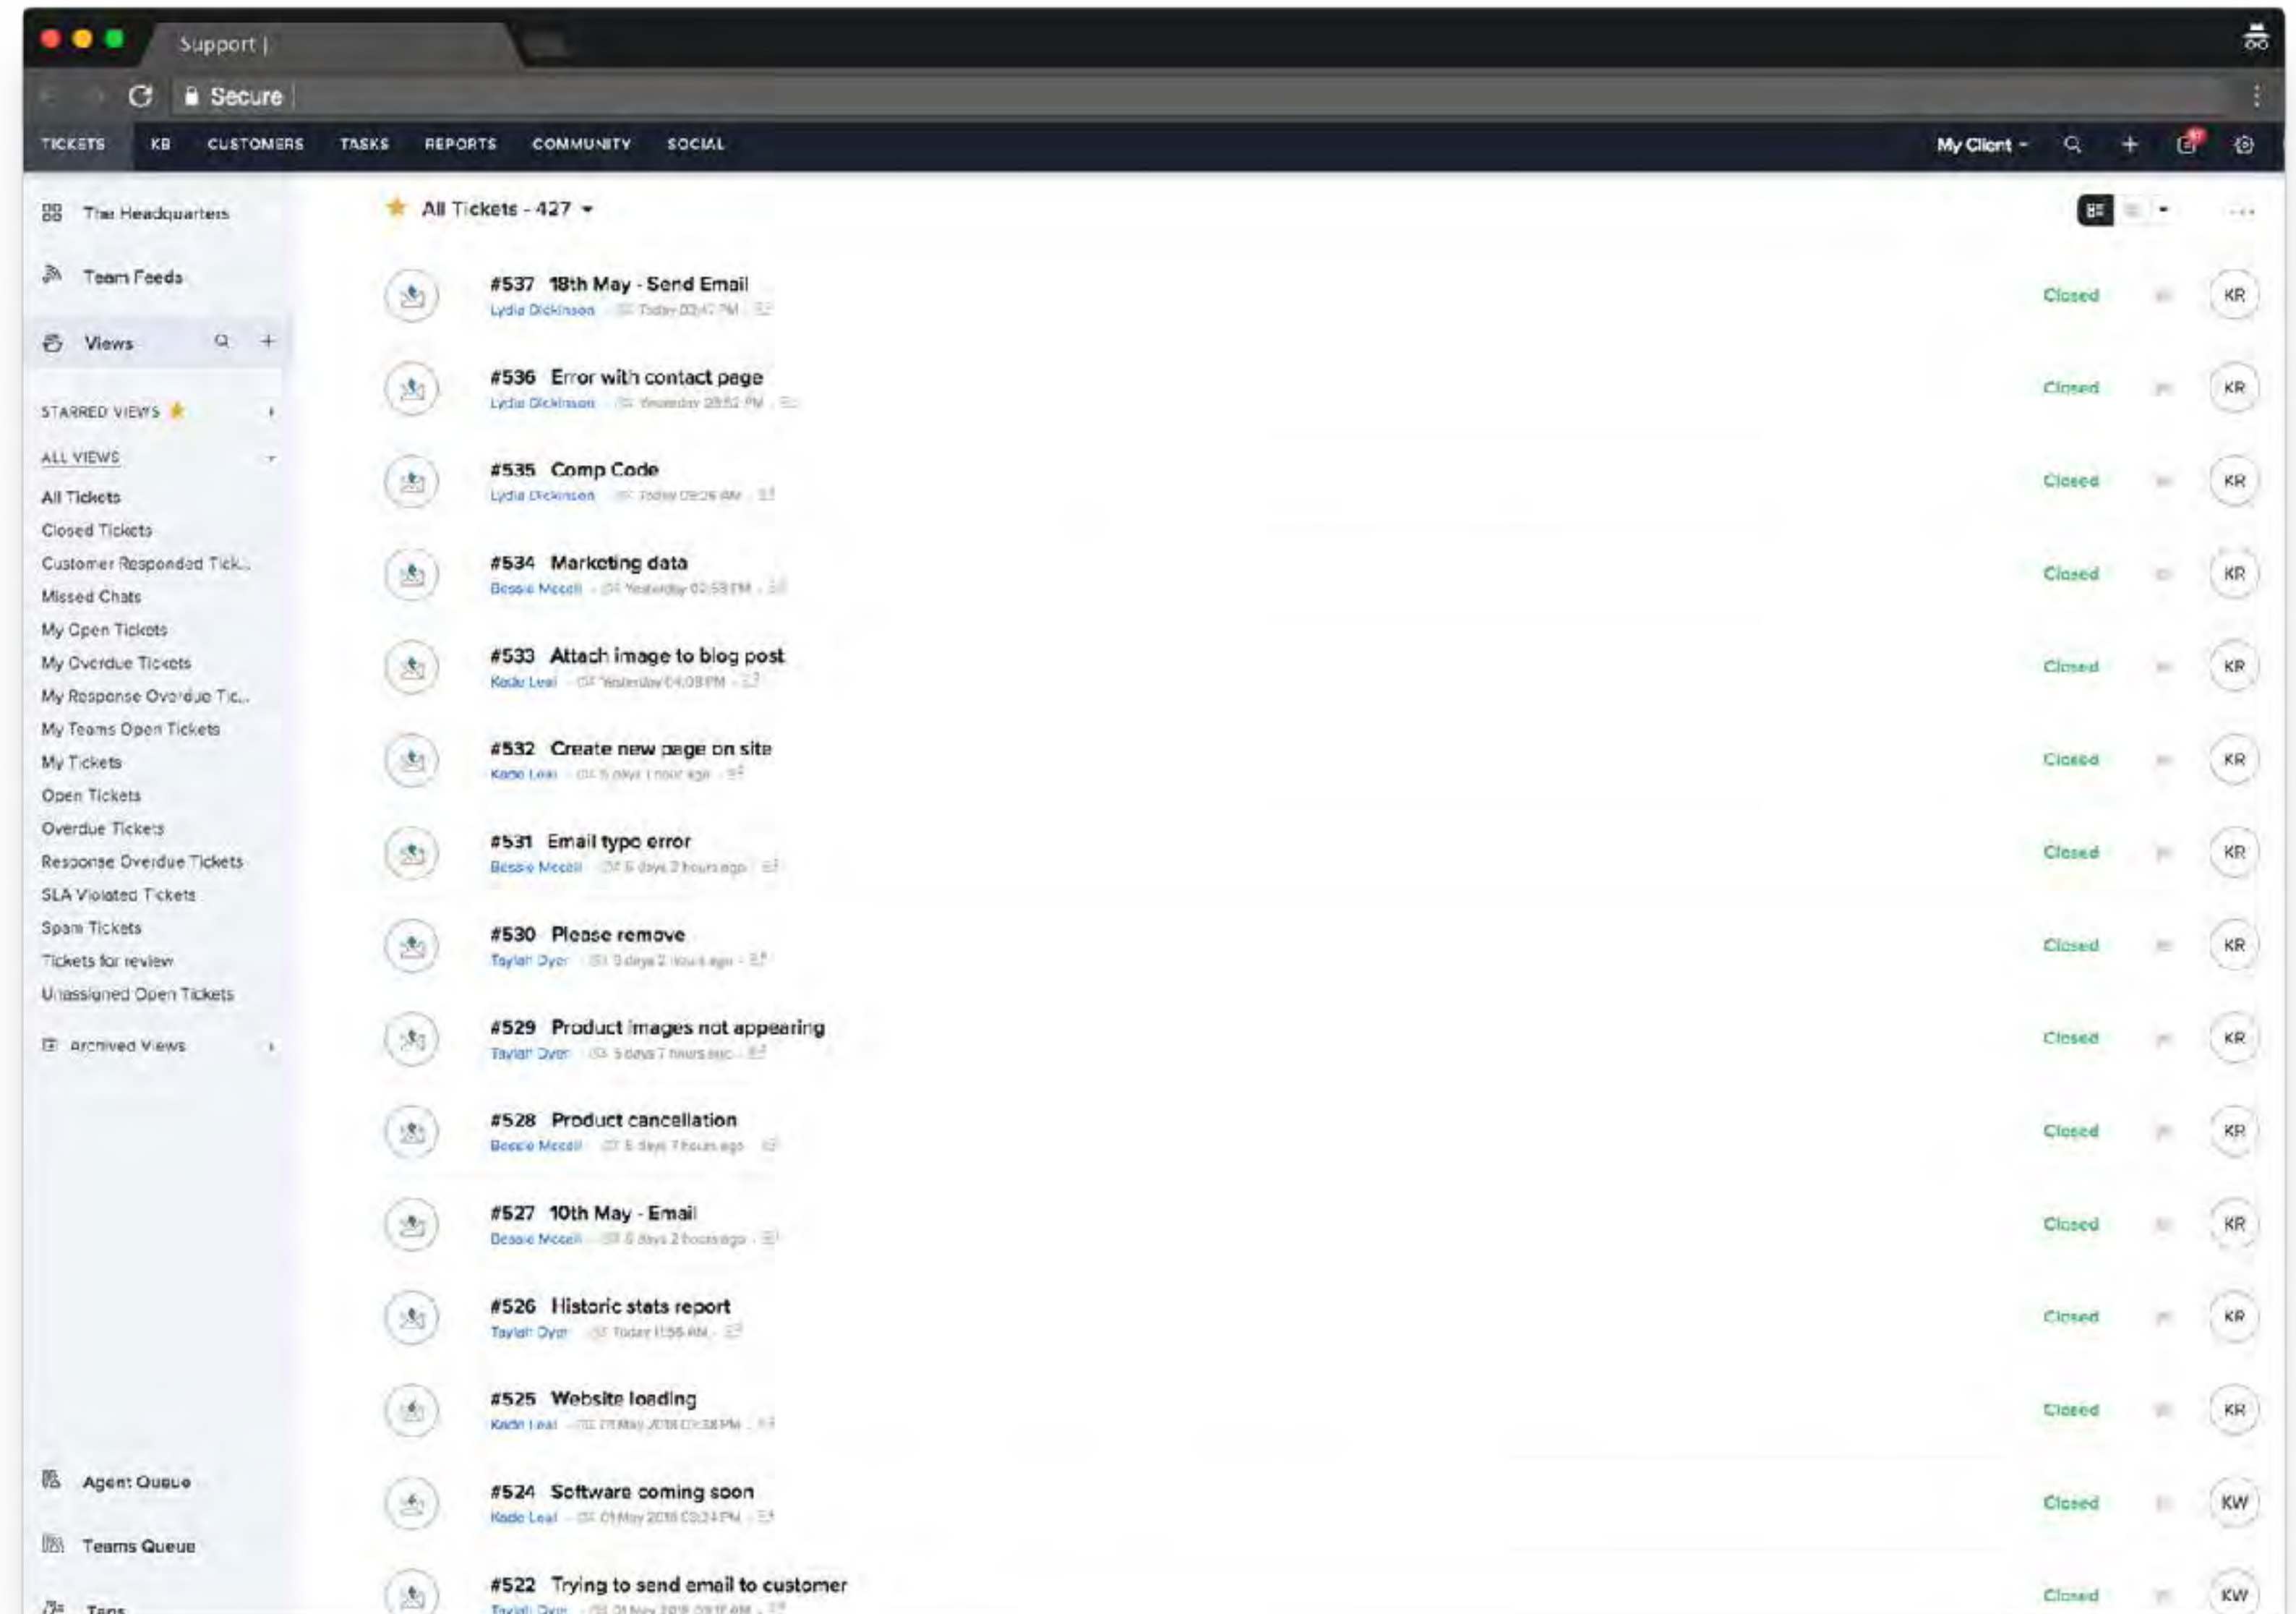

Ongoing Support

Once your solution is up and running, we won't just leave you. **We're here to help** you at every step of the process especially after your solution is live.

We'll offer you **constant support** whether that be technical or advice on how to do something. Meaning that you can concentrate on doing what you do best, helping your customers.

We're here for you, whether that be evenings, weekends or through the day. Don't be afraid to reach out to us for any support you need.

Apps

Have an idea for the next best app? Or simply want a different way to offer your service to customers? Whatever your app needs are, we're here to guide you through the process of curating a user friendly and functional **app you'll be proud of.**

Our **hybrid development process** means that we can develop one app that will automatically be setup for submission on multiple mobile platforms. Saving you both time and money on individual native app development work.

Branding

From logo design and brand guidelines to stationary artwork and branded uniforms, we'll help you **form or reform your brand**, making you stand out against your competitors. We can do as much or as little of your brand management as you like.

Already have your brand but you're not quite sure how to display it to your audience? We'll help come up with ideas to **get your message across**.

Your brand will look good on print as well as digital. Reaching out to your target audience no matter what the medium. With guidelines available for social assets as well as print adverts, your brand has **never looked as good**.

Video & Photography

Whether it's a punchy, dramatic, attention-grabbing 30 second intro or slow-motion shots of beautiful landscapes & scenery - we'll **transform your idea** into reality. From scribbles on a piece of paper at our first meeting to planning how best to market the final render of your finished product, we'll stick by you every step of the way.

We know what looks good (and not so good) when it comes to video production, we'll work hard to bring your **vision to life**.

Using the latest video technology, drones, gimbals, editing software and effects, we'll help build your brand and project your image to your target audience. Nothing gets the message across more prominently than a **creative video production**. It's a good job that's exactly what we do.

Partner With Us

Are you an agency currently servicing clients, looking for digital expertise? We can partner with you to act as your **own in-house digital team**. We have the digital expertise that your company is striving for.

We offer consultation services for businesses needing help with their processes. We pass on our **expert knowledge** to you, setting you up with the right solutions. Whether that be your digital marketing strategy or help with server management.

Let's get together
